**BD Construction Assists with Expansion and Renovation at Ord Public Schools**

**(Kearney, NE; July 15, 2010)** — [BD Construction, Inc.](#), of Kearney, Nebraska, one of the Midwest’s leading construction companies, has begun construction on the expansion and renovation of Ord Public Schools, located in Ord, Nebraska.

BD Construction has the 35,000-square-foot project well underway. Facility additions and renovations are a result of the bond issue that was passed in November of 2009.

Additions to the facility include a new gymnasium, wrestling room, locker rooms and a full-service kitchen. In great need for upgrading, facility renovations included improvements to the heating and air conditioning systems and electrical and life safety codes.

Construction on the school began this past June and is on schedule to be completed by the summer of 2011, prior to the start of the new school year.

“It is evident that this expansion will be very useful for Ord Public Schools,” stated Mark Benjamin, president and CEO of BD Construction. “The new additions will provide much-needed space for the ever-growing needs of the school and the renovations completed will make this facility a safer environment for those attending and working at the school.”

***About BD Construction***

*Founded in 1960, BD Construction is today one of the Midwest’s leading construction companies with a lengthy history of large-scale building projects of every description, from hangars to hospitals to hotels. As design-build and construction management specialists, BD is capable of handling all aspects of a building project, starting with the initial concept and floor plans and continuing through site selection, design consultancy, project finance coordination, permitting, construction and evaluation of the finished project.
