**BD CONSTRUCTION STARTING ON STEEL STRUCTURE  
FOR SHOEMAKER'S TRAVEL PLAZA**

**(KEARNEY, NE; May 27, 2009)** — BD Construction of Kearney, Nebraska, has started construction on Shoemaker's Travel Plaza in Lincoln, Nebraska, located at 4800 West 'O' Street. BD Construction is partnering on this green building with Kingery Construction, prime contractor for the project, from Lincoln.

BD Construction will furnish and erect the pre-engineered steel structure for the 29,000 square foot truck plaza. "The complexity of the design will make this a challenging, but rewarding, project," according to Mark Benjamin, president of BD Construction.

The travel plaza will consist of diesel and gas fuel pumps, a Shoemaker's Restaurant, a fast food restaurant, and full services for truckers including showers and laundry. The plaza will have three distinct elevations for the fast food restaurant, convenience store, and Shoemaker's Restaurant. The facility will also feature several antiques, motorcycles and hand crank fuel pumps from the old gas station.

"We are excited to work alongside BD Construction of Kearney again," stated Chris Kingery of Kingery Construction. "I am confident they will create an excellent structure for Shoemaker's Travel Plaza."

***About BD Construction***

*Founded in 1960, BD Construction is today one of the Midwest's leading construction companies, with a lengthy history of large scale building projects of every description, from hangars to hospitals to hotels. As design-build and construction management specialists, BD is capable of handling all aspects of a building project, starting with the initial concept and floor plans and continuing through site selection, design consultancy, project finance coordination, permitting, construction and evaluation of the finished project.
